Calcitbond is duly registered with Corporate Affairs Commission (CAC) as a company into the manufacturing of building and finishing materials in addition to being dealers and suppliers of building and finishing materials. Calcitbond is a transforming company into the transformation of raw materials to finished goods to cater to the local and international markets.

The company was formed to engage in backward integration in the building construction sector via the manufacturing of green building and finishing materials. Starting with hard wooden floors (parquet). The focus on green building / finishing materials is aimed at reducing the quantity of cement used in building construction, increasing energy conservation, and encouraging the use of environmentally friendly products thereby reducing intoxication rate in buildings.
